Skills trainer 5 – powtórzenie wiadomości (strona 96,97)

- W ramach zajęć proszę wykonać ćwiczenia na stronach 96,97 naszego podręcznika.
- Do ćwiczenia 4 podaje treść nagrania.

1 I love studying science at school and I want to study biology at university. I'm very interested in the sea and everything that lives under the water. When I was four or five I visited a huge aquarium at the seaside and I was amazed with the fish I saw. It was an important moment in my life. I never stopped thinking about it. So, I want to be a biologist in the future. My dream is to discover something new – a new plant, or animal or fish. //

2 When I was six I wanted to be a fireman like my grandpa. But now my dream is to be a footballer! I play football all the time. I'd like to be like Leo Messi one day. He's the best. I go to training five nights a week. I already play for the local football team, and I score a lot of goals. I want to be chosen for one of the top teams in the country and also to play in our national team.

3 There is a tradition in my family that the women become dentists. My parents can't imagine me doing anything else. But I plan to be a vet. I love animals and I've got quite a lot of them at home. I've got dogs and cats and I hope to have a horse soon. I already help out at the local vet's on Saturdays. It's quite difficult to become a vet, but I can study hard!

4 I want to be a pilot. I really want to fly planes. I think they're wonderful. I can't decide if I want to fly passenger planes, helicopters or fighter jets. But I don't need to decide just yet! When I'm eighteen, I want flying lessons. They're very expensive, so I'm saving for them now.

5 I just want to be an actress. I love English and drama classes and I'm in the school show every year. I love singing too. I have singing lessons every week. Besides, most members of my family are actors. My grandpa is an actor and my uncle and two of my cousins. My mum acts in TV serials as well, so she's not surprised by my decision.
